

WiFi Camera

Real-time access to the operational status of attachments and the entire vehicle. Multi-angle installation with real-time monitoring lead to operation safety.

01 Quick multi-angle installation without drilling, and multi-angle adjustment is supported.

02 Dual cameras are supported to connect control terminal, which can be switched anytime (customized 4-camera connection).

03 Automatic sensing for light intensity and infrared night vision support all-weather operations.

04 HD video 1080P. Max transmission rate 150Mbps. Max transmission distance 20m.

05 Anti-flicker, dual code stream, password protection.

06 Ingress Protection IP65.

07 Auto-connect after power outage and restart, no repeated match.

Product Specifications

Item	WiFi Camera
Dimension	88*102*128mm
Power Cord	7m
Product Weight	370g
Transmission Distance	20m
Channel bandwidth	20MHZ
Frequency Range	2.4GHz~2.4835GHz
Input Power	DC 12V, 1A
Working Temperature	-20°C ~ 60°C
Storage Temperature	-30°C ~ 60°C
Infrared Radiation Range	10m
